Introduction

I'm a beginner developer with a passion for exploring new technologies and solving problems. I enjoy tinkering with various development tools, and I'm always learning and experimenting with new concepts in tech.

Education

- **Self-Taught Developer** – Continuously learning through online resources and personal projects.
- **Computer Science and Engineering (The Ohio State University)** – Some college-level coursework in Computer Science and Engineering.
- **Software Developer AAS (Columbus State Community College)** – Some college-level coursework in Computer Science and Engineering.

Skills

- Programming Languages: Python, JavaScript, HTML, CSS
- Tools and Frameworks: Git, NixOS, TeX, Neovim, ZMK
- Areas of Interest: System Configuration, Web Development, Embedded Systems

Projects

- **[nixos-config](https://github.com/nnguyy/nixos-config)** – NixOS configuration repository for setting up a reproducible system setup.
- **[portfolio](https://github.com/nnguyy/portfolio)** – A personal portfolio website showcasing my projects and skills in web development.
- **[blog](https://github.com/nnguyy/blog)** – A personal blog built to share my experiences, notes, and learnings on various tech topics.
